WORK OF DAVID HAMMONS TO BE SHOWN IN THE "WINDOW" JULY 12 THROUGH SEPTEMBER 18, 1980.

On July 12th, The New Museum's 14th STREET SHOWCASE, located just off Fifth Avenue and part of the New School Building presents the sixth in an ongoing series of "WINDOW" installations.

While DAVID HAMMONS is known primarily for his environmental installations consisting of hair and wire, he has designed a special project for the "WINDOW" which will be presented in two separate installations during the summer months. Both of his projects will reflect his concern with Afro-American culture.

Hammons work also is presently exhibited in the TIMES SQUARE SHOW. He studied art in California where he has participated in numerous group shows.
